ТАКТИКА LLC Manufacturing Group is a leading manufacturer of geologist, army and humanitarian tents. We use advanced tools for welding PVC fabrics and high-tech sewing equipment in our production. We design and create new tents for any climate conditions.

For our tents, we use high-quality natural cotton fabrics such as calico and tarpaulin, as well as PVC for roofs.

Our products help effectively address administration and humanitarian issues while providing necessary comfort and care at work and rest. We create durable, high-quality products for your comfortable and safe stay away from home.

4-person tents

ТАКТИКА-4 Tent Specifications

Length, m	3.5
Width, m	3.3
Side wall height, m	0.95
Interior height, m	2.1
Total area, m ²	11.5
Weight, kg	60
Packaging	Tarp stuffsack
Sleeps	up to 4
Windows with mosquito nets and light -proof shades	3
Tent vestibule	Canopy
Tent stove jack	1
Exterior roof material	PVC fabric, density: 630 -650 g/m ² .
Side and end wall exterior material	Light -resistant tarpaulin with enhanced waterproofing, product code: 11292
Interior material	Cotton canvas, Russian GOST standard
Interior insulation material	Thermal -bonded needle -punched fabric, density: 250-300 g/m ²
Floor material	PVC fabric, density: 500 -630 g/m ²

ТАКТИКА LLC Manufacturing Group

6-person tents

ТАКТИКА-6 Tent Specifications

Length, m	4
Width, m	3.7
Side wall height, m	1
Interior height, m	2.1
Total area, m ²	14.8
Weight, kg	85
Packaging	Tarp stuffsack
Sleeps	up to 6
Windows with mosquito nets and light -proof shades	3
Tent vestibule	Canopy
Tent stove jack	1
Exterior roof material	PVC fabric, density: 630 -650 g/m ² .
Side and end wall exterior material	Light-resistant tarpaulin with enhanced waterproofing, product code: 11292
Interior material	Cotton canvas, Russian GOST standard
Interior insulation material	Thermal -bonded needle -punched fabric, density: 250-300 g/m ²
Floor material	PVC fabric, density: 500 -630 g/m ²

ТАКТИКА LLC Manufacturing Group

5-person tents

M-5 Tent Specifications

Length, m	3.4
Width, m	4
Side wall height, m	1.6
Interior height, m	2.3
Total area, m ²	13.6
Weight, kg	110
Packaging	Tarp stuffsack
Sleeps	up to 5
Windows with mosquito nets and light -proof shades	2
Tent vestibule	No
Tent stove jack	1
Exterior roof material	PVC fabric, density: 630 -650 g/m ² .
Side and end wall exterior material	Light-resistant tarpaulin with enhanced waterproofing, product code: 11292
Interior material	Cotton canvas, Russian GOST standard
Interior insulation material	Thermal -bonded needle -punched fabric, density: 250-300 g/m ²
Floor material	PVC fabric, density: 500 -630 g/m ²

ТАКТИКА LLC Manufacturing Group

5-person tents

ТАКТИКА-5 Tent Specifications

Length, m	3.4
Width, m	4
Side wall height, m	1.6
Interior height, m	2.3
Total area, m ²	13.6
Weight, kg	110
Packaging	Tarp stuffsack
Sleeps	up to 5
Windows with mosquito nets and light shades	2
Tent vestibule	1
Tent stove jack	1
Exterior roof material	PVC fabric, density: 630 -650 g/m ²
Side and end wall exterior material	Light -resistant tarpaulin with enhanced waterproofing, product code: 11292
Interior material	Cotton canvas, Russian GOST standard
Interior insulation material	Thermal -bonded needle -punched fabric, density: 250-300 g/m ²
Floor material	PVC fabric, density: 500 -630 g/m ²

ТАКТИКА LLC Manufacturing Group

10-person tents

M-10 Tent Specifications

Length, m	5
Width, m	4
Side wall height, m	1.6
Interior height, m	2.3
Total area, m ²	20
Weight, kg	140
Packaging	Tarp stuffsack
Sleeps	up to 10
Windows with mosquito nets and light -proof shades	4
Tent vestibule	No
Tent stove jack	1
Exterior roof material	PVC fabric, density: 630 -650 g/m ² . RF welded seams
Side and end wall exterior material	Light-resistant tarpaulin with enhanced waterproofing, product code: 11292
Interior material	Cotton canvas, Russian GOST standard
Interior insulation material	Thermal -bonded needle -punched fabric, density: 250-300 g/m ²
Floor material	PVC fabric, density: 500 -630 g/m ²
